ROZAWOOD 30th ANNIVERSARY DREADNOUGHT

After thirty years of music instruments building Roman designed this Special Dreadnought as the Anniversary Model with symbolic serial No. 300.

The guitar is made from special selected tonewoods – top is from Master Grade Alpine Spruce, back and sides are made from Black Ebony and the neck and back mid-piece are crafted from High Grade Flamed Maple. Special pearl inlays were created for the rosette and the fingerboard to make a delicious but spectacular design. It is accented by special curved shape of the back which makes this guitar really unique. The whole instrument is finished with high gloss natural nitrocellulose lacquer.

The appearance of **ROZAWOOD 30th ANNIVERSARY DREADNOUGHT** is our celebration of all guitar-building masters' skills.
